Summary

Computer Science and Engineering graduate with hands-on experience in Python, Django, HTML, and Bootstrap. Interested in backend development and building reliable, user-focused applications.

Experience

RR Corporate Pvt. Ltd. (Rabhyaa-Rabhav Corporate Private Limited)   **Aug 2025 – Present**
Python Developer   *Lucknow, India*
- Working as a Python developer contributing to backend development and application maintenance.
- Built a complete data automation system that handled PDF reading, table extraction, data cleaning, and cloud storage in a reliable way.
- Improved the application's speed with caching, refined backend logic, and added useful notifications to make the workflow easier.

Augurs Technology Private Limited   **Dec 2024 – July 2025**
Python Developer Intern   *Lucknow, India*
- Collaborated on Python-based applications focusing on code quality, testing, and optimization.
- Worked with senior developers for feature design, debugging, and deployment tasks.

OPL Innovate   **Mar 2024 – Jun 2024**
Java Developer Intern   *Ahmedabad, India*
- Managed MySQL databases: created, optimized queries, ensured data integrity.
- Designed and implemented SQL operations and reports for application logic.

Projects

Fundraising Web Application   *May 2025 – July 2025*
- Developed a web-based crowdfunding portal enabling users to create and manage donation campaigns.
- Implemented campaign listing, status tracking, and authentication using Django's built-in auth system.
- Integrated AJAX for real-time campaign updates, filtering, and smooth interactions.
- Designed a secure backend using Django ORM and MySQL.
- Built a responsive UI using Bootstrap for mobile-friendly experience.

AShopping - E-commerce Platform (Django)   *April 2025 – May 2025*
- Built a complete e-commerce system with product listings, cart, and order tracking.
- Integrated Stripe Checkout API for secure online payments.
- Implemented a session-based cart and AJAX-driven quantity updates.

Blog Project (Django)   *Dec 2024 – Jan 2025*
- Created a blogging platform with CRUD operations, authentication, and role-based access.
- Designed a responsive UI using Bootstrap and Django Templates.
